INVESTMENT OBJECTIVE

The Fund aims to track the performance of the MSCI Emerging Markets (Net Total Return) Index (before fees and expenses are applied), thereby seeking to increase the value of your investment over a period of 5 years or more. The performance of the Fund is unlikely to track the performance of the index precisely. Examples of tracking difference are explained in the Prospectus Notes below and the KIID. The Fund uses an 'index tracking' (also known as 'passive') investment management approach whereby it aims to replicate the composition of the index. However, for practical reasons and/or to reduce the dealing costs of the Fund, it may not invest in every company share in the index or at its weighting within the index. As well as investing directly in company shares, the Fund will achieve exposure indirectly through the use of derivatives for efficient portfolio management purposes, for example, at the time of cash inflows to remain fully invested or to reduce transaction costs. In order to manage the cash position, the Fund may invest in collective investment schemes (such as liquidity...
